It is the best blood medicine because it purifies the blood, and at the same time builds up the entire system. It is a remedy for the various poisons, mercury, arsenic, and all other poisons, and is a remedy for the various diseases of the blood and the system. It is a remedy for the various diseases of the blood and the system. It is a remedy for the various diseases of the blood and the system.

## BLOOD MEDICINE

You cannot do better than take S. S. S. As a physician, I have prescribed and used S. S. S. in my practice as a tonic and for blood troubles, and have been very successful. I never used a remedy which gave such general satisfaction to myself and patients.

## NEW YORK IS SCARED.

Soon to Face the Problem of the Unemployed.

## IDLE THOUSANDS MOVING EAST.

Hundreds of Her Own Citizens Unemployed. Makes the Situation Worse—Immigrants Pouring in Who Are Willing to Work for Cheap Wages.

NEW YORK, Aug. 2.—There are indications that New York will soon be confronted by the problem of "the unemployed." Thousands of men have been thrown out of work in many localities in the west during the past few weeks. The silver miners, because of the closing down of silver mines consequent on the silver coinage uncertainty and the depreciation of the metal by the action of India, have determined to move eastward, imbued with the idea that in the east there is abundant charity if not abundant work. Besides this thousands of men have been thrown out of employment in the different manufacturing throughout the country. When they strike New York they will find almost as great depression here. The Central Labor union, in gathering statistics has found that 1,000 painters are idle, with a likelihood that in proportion to the number are idle in the other trades, besides the common laborers.

With this state of affairs the consequences of the threatened invasion from the west must be imagined. Unless the march eastward can be stayed New York, in a few weeks, will be invaded by a clamorous host of hungry men, desiring to be fed and clothed, men who look upon charity as their prerogative, as they have been taught to blame the east for all their misfortunes, a teaching supported by the action of the western railroads, which are carrying these men free upon their cars.

Besides this, immigrants are coming into the country from Europe at a rate scarcely smaller than that of a very prosperous time. The contract labor bureau has done its best to find contract labor in the month of July as were discovered during four months previous, and detective agents of labor organizations in New York have been able to hire men on Ellis island at wages far below the regular rates. Laborers are willing to work at 90 cents a day, carpenters at \$2.50 and skilled workmen in other trades at the same proportion.

At Weir City, Kas., where there has been a shooting between miners and other employees, it is reported that 200 Italians, Austrians and colored men have been shipped to take the place of the strikers. The shipping of these men to Weir City bears out what the reporter learned from Ellis island, and a partial remedy for the dull times is going to be found by many factories, mines and mills in shutting down for a few weeks and in that period gathering together enough cheap immigrant laborers to start up again.

## No Worse Than Dudes.

LOUISVILLE, Aug. 2.—Annie Wilson, Daisy Edington and May Wilson, three damsels clad in a bewildering array of laces, furbelows, red, blue and pink ribbons and white dresses, lined up in front of the police court here of justice. All three were chewing gum, and they giggled in a hysterical manner as they nudged one another with their elbows and conversed in whispers. The arresting officer told how the three girls came down Jefferson street almost laughing and talking rather loudly, but, worst of all, they had lighted cigarettes in their mouths. The officer told how they blew the smoke from their lips with that careless air which is characteristic of a habitué. Judge Buckley gazed reproachfully at the girls, and remarked that, though they had been guilty of a flagrant impropriety, he did not think it was any worse for a girl to smoke cigarettes than for a dude, and he ordered the discharge of his fair prisoners.

## May Lose the Mint.

PHILADELPHIA, Aug. 2.—No definite plan of action has been formulated by the citizens' committee for the location of the mint. There is a well-founded rumor that the gentlemen composing the committee are divided in opinion regarding the site, each favoring the location which will enhance his own interests. W. W. Foulard, president of the Trades' league, Howard B. French and William V. Kenn, representing the committee, went to Washington upon request of Secretary Carlisle. It is feared the city will lose the mint unless concerted action is agreed upon.

## Drove Colored Men Away.

HARTFORD, Conn., Aug. 2.—Dr. Scott and Ham Miles, prosperous farmers north of this city, thought the employment of colored laborers would have some expense. They imported two from near Cincinnati and put them to work. Each of these farmers found pinned to his front door a letter commanding him to discontinue the "colored labor" or suffer the vengeance of the "White Caps." The colored gentlemen have been released.

## Hotel Guests Searched.

NEW YORK, Aug. 2.—Fire in a closet on the second floor of the Gedney House caused a panic and sent the guests rushing down the stairs and fire escapes in their night clothes. The presence of mind of Policeman Barry saved three women from jumping or falling from the fire escapes to the street. The damage amounted to a few hundred dollars.

## Can Preserve the Health.

LANSING, Mich., Aug. 2.—The United States court at Marquette has denied the application of the Minneapolis, St. Paul and Sault Ste. Marie railroad for an injunction restraining the state board of health from enforcing its rules to the alleged inconvenience of that road. Attorney General Ellis was formally notified.

## A Cruelty Goes in Commission.

PHILADELPHIA, Aug. 2.—The United States cruiser New York, which is now receiving her finishing touches at Cramp's ship yards, has gone into commission. The ceremonies were brief and simple.

Our Republican friends are vainly endeavoring to make some of our Democrats believe the money stringency is caused by the Democratic party. It is amusing, indeed, to hear a few dyed in the wool Republicans discuss the situation. They get completely gone on themselves.
